TERMS FOR NEW SERIES T SPECIAL BONDS AND INSCRIBED STOCK

Rising interest rate. The first payment of interest will be made on June 1, 1970, calculated from the date of subscription at 5.2% p.a. Thereafter, interest will be paid half-yearly as follows:—

5.2% p.a. to May 1972
then 5.6% p.a. from June 1972, to May 1974
then 6% p.a. from June 1974, to May 1977.

Increasing capital gains. The longer you hold your Special Bonds, the more valuable they become.

From June 1, 1970 until May 31, 1972, for each $100 invested you can obtain $100
Or from June 1, 1972 until May 31, 1974, for each $100 invested you can obtain $101
Or from June 1, 1974 until May 31, 1977, for each $100 invested you can obtain $102
When Series T Bonds mature (June 1, 1977), for each $100 invested you will receive $103

New Series T Special Bonds may be cashed in full from June 1, 1970, by giving one month's notice at any bank. Interest will be paid for each full month since the last interest date. The minimum subscription to Special Bonds is $10.

The limit on any one holding (all series combined) is $30,000.

Even the food the history-making Apollo 11 astronauts will eat on their eight-day moon mission is getting "lab" clearance. Freeze-dried steak of roast beef is closely examined by Mrs E. Pratley, director of special foods research for Chicago Swift & Co., to make sure it is up to standard for the moon meal. The steak beef will be one of a wide variety of main courses provided by Swift main course chefs for the three astronauts. — AAP-AP photo.

self-tax

A SCHEME to encourage Australian church members to tax themselves for overseas aid has been launched by the Australian Council of Churches.

Under the scheme people are asked to apply a self-tax to indicate their willingness for Government aid expenditure to be raised to 1 pc of the gross national product.

A background document prepared by the council's Inter-Church Aid Division noted that, to reach the UN target of 1 pc, Australia's aid budget would need to be increased from $155 million to about $225 million in 1968-69.

Extra 3 pc

"To provide from individual income tax the extra amount needed, every Australian tax payer would need to pay an extra 3 pc tax," the council says.

It recommends that the money be given to established aid organisations.

Church members who wish to apply the tax to themselves on a regular basis can do so through the council's Peace 10 programme, whose members support a different aid programme each month.

The council will keep records of the numbers of people applying the self-tax.

A council spokesman said a number of people were enrolled within a few days of the scheme going into operation.

A boy's great chance for a great future

5 years training (on full salary) in Telecommunications as a Technician

Five years specialised training that doesn't cost you a cent. In fact, you're actually paid to do it. The Post Office Telecommunications course equips you for one of the world's most dynamic industries. You'll be a highly specialised technician — a key man in the rapidly expanding world of telephone operations, telegraph systems, data transmissions, broadcast and television relays, co-axial cables and microwave radio systems. If you're at High School or Tech., up to at least third year level (fourth year level in Victoria), here is your great chance for a great future — vitally interesting, secure, rewarding — in the Australian Post Office. Don't delay — get the explanatory booklet today from your local post office or Recruitment Officer. *G.P.O. Hurry* — applications close July 31.

Unidentified flying objects — seen any lately?

THE Tasmanian Flying Saucer Observers' Association is interested in hearing from anyone who thinks they may have seen a UFO.

The president, Mr P. Dunbabin, of Mitcham St, Moonah, said yesterday that although the group was formed in March, 1968, it already had about 45 members throughout the State.

It was an investigatory and independent body, not affiliated with any other Australian UFO group, he said.

Though it did have contacts in all States, and in the United States.

The association publishes its own magazine—"UFO News"—which is on sale in the Hobart area.

Mr Dunbabin said the group had on file one positive sighting in the Coles-sum Bay area, but admitted that many of the all sightings turned out to be "misidentifies" tion—especially involving the planet Venus.

Lone Atlantic oarsman faces last big test

MIAMI.—After battling storms, sharks and seasickness, British oarsman John Fairax yesterday sculled through tiny waves north of Cuba heading for what may be the last major test of his record row—the Gulf Stream.The Associated Press reported that Fairax was rowing about 40 miles off the north coast of Cuba with some 150 miles still between him and his Miami goal.

Fairax paddled his 24ft Britannia away from the Bahamas on July 5 in an attempt to be the first to row the Atlantic alone.—AAP.

MR DUNBABIN

Spark suspected cause of fire

A SPARK from the chimney of an adjoining building is the suspected cause of a house fire in West Hobart on Saturday night.

Damage by the fire, at a Valley St home owned and occupied by Mr. Ian Brain, was estimated by the Hobart Fire Brigade at under $1000.

Cupboards, a wardrobe, and clothing were severely damaged by fire, and a lampshade, walls, floor coverings and curtains were damaged by smoke, and water, the brigade reported.

The alarm went out at 6.47 pm, and it took the brigade 31 minutes to extinguish the blaze.

In another weekend fire in Hobart, a car, its contents, and 30ft of paling fence, at the home of Mr J. Yeung in Resolution St, Warrane, were severely damaged about 3.30 pm. The brigade estimated damage at under $200.

Balloon trip next week?

SMITH.—Weather conditions for a trans-Australia balloon flight could be suitable by next weekend, PO Peter Dickens said yesterday.

The pilot in the adventure flight, Lieut. Les Jones, was expected to arrive with the balloon at Learmonth from the US on Tuesday.

The two men who are attempting to make the first trans-Australia flight to drift across Australia at about 25 knots landing near Coffs Harbour in Northern New South Wales.

The journey is expected to take four days and four nights.

Oh your aching back

COULD LAZY KIDNEYS BE THE CAUSE?

When your kidneys are sluggish they don't get rid of the poisons in your blood and impurities from your bloodstream. You suffer aches and pains that make you feel as though you get. Start a course of De Witts Pills and overcome pain.
